## Township 36 South, Range 11 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the south boundary of T. 35 S., R. 11 E. (Seventh Standard Parallel South), and the survey of the remaining unsurveyed subdivisional lines of Township 36 South, Range 11 East, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byNORTH BOUNDARY (Seventh Standard Parallel South)

SUBDIVISION

Portion Sylvester and Lane 1957

Portion F. Profaizer 1979

Portion F. Profaizer 1979

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 647, Utah, dated March 15, 1984.

The direction of lines refer to the true meridians determined by observations of Polaris and direct altitude observations of the sun and projected by sustained angulation throughout the survey.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 34, as determined by calculation from U.S.G.S. tri-station "PINE" and "HANSEN", located in T. 36 S., R. 10 E., is as follows:

Latitude 37° 39' 23.38" N. Longitude 110° 38' 11.76" W.

The mean magnetic declination as projected from the U.S. Geological Survey Magnetic Declination of 1980" is 13 1/2° East.

	<p style="text-align: center;">General Description</p> <p>The area surveyed within Township 36 South, Range 11 East, is situated around the townsite of Ticaboo, Utah. The elevation varies from 4050 ft. above sea level to 5050 ft. above sea level. General drainage is to the south along Hansen Creek and into Lake Powell. The ticaboo townsite is located in section 16. Access to the township is by Utah State Highway No. 276 which enters the township in section 2 on the north boundary and exits the south boundary in section 32.</p> <p>The area surveyed is used primarily for mining and livestock grazing.</p> <p>The mean magnetic declination is 13 1/2° East.</p>

# CERTIFICATE OF SURVEY

(I) We, XXX Jerry L. Thomas, Supervisory Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 15th day

of March, 1984 (Wednesday) have independently resurveyed a portion of the south boundary of Township 35 South, Range 11 East (Seventh Standard Parallel South), and surveyed the remaining unsurveyed subdivisional lines of T. 36 S., R. 11 E.,

of the **Salt Lake** Meridian, in the State of **Utah**, which are represented in the foregoing field notes as having been executed by (me), (us), and under (my) ~~XXX~~ (our) ~~XXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

**March 12, 1986**

## Township 37 South, Range 11 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the survey of a portion of the subdivisional lines and a partial subdivisional survey of eight sections, Township 37 South, Range 11 East, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed bySOUTH BOUNDARY

1957

NORTH BOUNDARY

A11 Lane and Sylvester 1957

SUBDIVISION

A11 Lane and Sylvester 1957

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 647, Utah, dated March 15, 1984.

The directions of lines refer to the true meridians determined by observations on Polaris and direct altitude observations of the sun, and protected by sustained angulation throughout the survey.

The geographic position of the true point for the southeast corner of section 24, as determined by calculation from U.S.G.S. tri-station "HOSK", located in section 28, is as follows:

Latitude 37° 34' 10.34" N. Longitude 110° 38' 11.86" W.

The mean magnetic declination as projected from U.S. Geological Survey "Magnetic Declination Map of 1980", is 13 1/2° East.

NOTE: The Glen Canyon National Recreation Area boundary runs throughout the township. A number of the section corners are marked GCNRA which stands for Glen Canyon National Recreation Area.

<p style="text-align: center;">General Description</p> <p>The area surveyed within Township 37 South, Range 11 East, is situated between Ticaboo, Utah, and the Bullfrog Marina. The elevation varies from 3800 ft. above sea level to about 4400 ft. above sea level. General drainage is to the south and southeast into Lake Powell. The Bullfrog Landing Strip is located in sections 32 and 33. Utah State Highway No. 276 passes through the township in a north and south direction and the Burr Trail road from Boulder, Utah, enters the township from the west boundary in section 19 and intersects Utah State Highway No. 276 in section 20.</p> <p>The area surveyed is used primarily for recreation and livestock grazing.</p> <p>The mean magnetic declination is 13 1/2° East.</p>	

(I) We, **Jerry L. Thomas, Supervisory Cadastral Surveyor**, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 15th day

of March, 1984 (Wednesday) surveyed a portion of the subdivision lines and surveyed the subdivision of certain sections of Township 37 South, Range 11 East

of the **Salt Lake** Meridian, in the State of **Utah**, which are represented in the foregoing field notes as having been executed by (me), (us), and under (my) ~~XXX~~ (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

## Township 38 South, Range 22 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the south boundary, a portion of the subdivisional lines and a subdivision survey of sections 13, 14, 15, 21, 22, 23, 24, 25, 26, 27, 28, 33, and 35, T. 38 S., R. 22 E., Salt Lake Meridian, Utah.

SUBDIVISION

A11	D.B. Miller and	1912
	J.C. Thoma	

The survey were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 645, Utah, dated January 25, 1984.

The direction of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the corner of sections 1, 2, 35, and 36, on the south boundary of the township, as determined from a tie made to U.S.C. & G.S. triangulation station "RECAPTURE", is as follows:

Latitude 37° 25' 56.95" N. Longitude 109° 27' 26.52" W.

The mean magnetic declination as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980 is 14 1/2° E.

	<p style="text-align: center;">General Description</p> <p>The area surveyed and resurveyed within Township 38 South, Range 22 East, varies from gentle rolling sandy mesa tops to very broken canyon lands. The elevation ranges from about 4800 ft. in the canyons to about 5400 ft. above sea level on the mesas. The soil varies from very sandy on the mesas to clay and rocky in the bottom lands. The vegetation consists of shadscale, sagebrush, bunchgrass, meadow grass and other sparse native grasses. There is scattered pinon and juniper growing throughout, with some cottonwoods along the creek bottoms. The general drainage is to the south.</p>

## Township 38 South, Range 22 East, Salt Lake Meridian, Utah

## CHAINS

There are several dwellings located in sections 14, 23, and 26.

Access to the portions surveyed is by U.S. Highway No. 191, which enters on the north boundary of section 15 and leaves the township on the south boundary of section 35. There are numerous trail roads branching off from the main road.

The mean magnetic declination is  $14\ 1/2^{\circ}$  E.

## CHAINS

The following field notes are those of a dependent resurvey of a portion of the west boundary (Colorado Guide Meridian), a portion of the south boundary, a portion of the subdivisional lines and a subdivision survey of sections 18, 19, and 31 in Township 38 South, Range 23 East, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byWEST BOUNDARY (Colorado Guide Meridian)

SUBDIVISION

A11	Miller and Thoma	1912
-----	---------------------	------

The surveys were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 645, Utah, dated January 25, 1984.

The direction of the lines of this survey were determined by reference to true meridians established on line by direct observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the cor. of Tps. 38 and 39 S., Rs. 22 and 23 E., as determined from a tie made to U.S.C. & G.S. Triangulation Station "RECAPTURE," is as follows:

Latitude 37° 25' 56.88" N. Longitude 109° 26' 21.15" W.

The mean magnetic declination as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980," is 14 1/2° E.

## CERTIFICATE OF SURVEY

(I) ~~(XXX)~~ Richard A. Zaninovich, Supervisory Cadastral Surveyor, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 25th day

of January, 1984, (I) ~~(XXX)~~ have dependently resurveyed a portion of  
 the west boundary (Colorado Guide Meridian), a portion of the south  
 boundary, a portion of the subdivisional lines, and surveyed the  
 subdivision of sections 18, 19, and 31 of T. 38 S., R. 23 E.,

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), ~~(XX)~~ and under (my)  
~~(XXX)~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
 Washington, D.C.

The foregoing field notes of the dependent resurvey of a portion of the west  
 boundary (Colorado Guide Meridian), a portion of the south boundary,  
 a portion of the subdivisional lines, and the survey of the subdivision  
 of sections 18, 19, and 31 of T. 38 S., R. 23 E., Salt Lake Meridian, Utah

executed by Richard A. Zaninovich, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

## Township 43 South, Range 6 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of portions of the south and west boundaries and a portion of the subdivisional lines and the survey of the subdivision of sections 20, 21, 26, 29, 30, and 31 of Township 43 South, Range 6 West, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed bySOUTH BOUNDARY

All	Bailey and Burrill	1877	
Portion			Stewart and French 1909
Portion			Thoma and Clark 1914

WEST BOUNDARY

All	J.C. Thoma	1914
-----	------------	------

SUBDIVISION

Portion	Bailey and Burrill	1877	
Portion	Thoma and Clark	1914	
Portion			Thoma and Clark 1914
Portion			A. Nelson 1956
Portion			C.P. Sylvester 1978

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 648, Utah, dated March 23, 1984.

The directions of the lines of this survey refer to the true meridian as determined by hour angle observations on Polaris. The lines were carried forward by sustained angulations.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the 1/4 sec. cor. of secs. 26 and 35 and the cor. of secs. 5, 6, 31, and 32, as determined by a tie made to U.S. Coast and Geodetic survey station "MILE POST 89 ECC," are as follows:

1/4 26 and 35

Latitude  $37^{\circ} 02' 11.54''$  N. Longitude  $112^{\circ} 29' 33.85''$  W.

5, 6, 31, and 32

Latitude  $37^{\circ} 01' 20.56''$  N. Longitude  $112^{\circ} 33' 20.19''$  W.

The mean magnetic declination as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980," is  $14^{\circ}$  E.

Dependent Resurvey of a Portion of the South Boundary,  
T. 43 S., R. 6 W., Salt Lake Meridian, Utah

## CHAINS

Dependent Resurvey of a Portion of the South Boundary,  
T. 43 S., R. 6 W., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
Bailey and Burrill in 1877 and the Retracement  
Executed by Stewart and French in 1909 and  
Thoma and Clark in 1914)

Beginning at the cor. of secs. 5, 6, 31, and 32, on the  
S. bdy. of the Tp., monumented with an iron post, 2 ins.  
diam., set in concrete, projecting 4 ins. above the  
ground, alongside of which is set a sandstone, 10 x 8 x 6  
ins., above the ground, mkd. 5 notches on E and 1 notch  
on W edges.

From this cor., U.S.C. & G.S. station "MILE POST 89 ECC,"  
bears S. 78° 13.1' E., 552.51 chs. dist.

N. 89° 25' W., bet. secs. 6 and 31.

39.19

The 1/4 sec. cor. of secs. 6 and 31, monumented with a  
sandstone, 5 x 4 x 1 ft., mkd. 1/4.

From which the original bearing trees

A pine, 10 ins. diam., bears S. 20° E., 24 lks.  
dist., mkd. 1/4 S BT. (Record, S. 10° E., 15  
lks. dist.).

A pine, 8 ins. diam., bears N. 55° W., 39 lks.  
dist., mkd. 1/4 S BT. (Record, N. 60° W., 30  
lks. dist.).

At the corner point

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam., 18  
ins. in the ground to bedrock, and in a mound of stone, 4  
ft. base, to top of aluminum cap, mkd.

	General Description
	The area surveyed and resurveyed in T. 43 S., R. 6 W., is situated surrounding the city of Kanab, Utah. The elevation varies from 5000 ft. at Kanab Creek in sec. 21 to 6400 ft. on top of a mesa in the W. 1/2 of sec. 31. The terrain varies from the nearly level valley in which Kanab is located to broken sandstone ledges rising to level sandy mesas, vegetated with scattered pinon and juniper, surrounding this valley. Drainage is to Kanab Creek which bisects the area surveyed and drains south. U.S. Highway No. 89 follows Kanab Creek and passes through the area surveyed in sec. 21.

## CERTIFICATE OF SURVEY

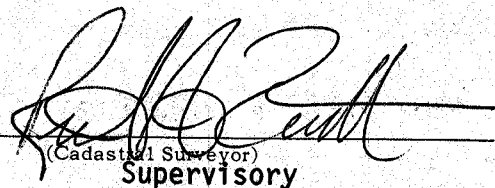

(I) (W) ~~XXX~~ Richard A. Zaninovich, Supervisory Cadastral Surveyor, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 23rd day

of March, 19 84 (I) (W) ~~XXX~~ have dependently resurveyed portions of  
 the south and west boundaries and a portion of the subdivisional lines and  
 surveyed the subdivision of sections 20, 21, 26, 29, 30 and 31 of  
 T. 43 S., R. 6 W.,

of the Salt Lake Meridian, in the State of Utah, which  
 are represented in the foregoing field notes as having been executed by (me), ~~(us)~~ and under (my)  
~~(our)~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.

		G.B. Hatch	

The dependent resurvey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 686, Utah, dated February 24, 1986.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic coordinates of the SE corner of section 4, as computed from the resurvey executed in 1971, and from U.S. Geological Survey triangulation station "SEC COR 36/12N/9W," are as follows:

## Township 11 North, Range 9 West, Salt Lake Meridian, Utah

CHAINS

## General Description

Township 11 North, Range 9 West is located approximately 25 miles south of Snowville, Utah, and is east of Locomotive Springs. The area is mostly level land along the shore line of the Great Salt Lake. Elevation varies from about 4,200 ft. along the shore line to 4,700 ft. above sea level at the south end of the Hansel Mountains.

Locomotive Springs National Wildlife Refuge is located in portions of sections 5, 6, 7, 8, 17, and 18. There are two improved dirt roads bearing generally E and W through this fractional township. Several springs were noted in sections 5 and 6, and one salt spring in section 10. No habitations were noted in the township. The old Central Pacific Railroad grade is located in sections 1, 2, 3, and 4. Vegetation consists of shadscale, sagebrush, greasewood and june grass in the northern portion with salt grass and marshes in the south and west portions.

hereinbefore described.

Survey of the South Right-of-Way Line of Section 31

From the intersect point on line between secs. 31 and 32,  
hereinbefore described.

N.  $52^{\circ} 50'$  W., along the south right-of-way line.

31.125 Point of curvature for Curve C. Not monumented.

Thence, along the arc of a circular curve to the left  
(south right-of-way line), having a radius of 83.782  
chs., chord bearing of N.  $53^{\circ} 13.5'$  W., chord of 1.145  
chs., delta angle of  $0^{\circ} 47'$ , deflection angle of  
 $1^{\circ} 02' 10''$ , and tangent of 0.573 chs.

1.145 Point of tangency of Curve C, identical with point of  
curvature of Curve B, with section line between secs. 30  
and 31, hereinbefore described.

Survey of the North Right-of-Way Line of Section 33

From the intersect point on the S. bdy. of the Tp., bet.  
secs. 4 and 33, hereinbefore described.

N.  $52^{\circ} 50'$  W., along the north right-of-way line.

9.68 Intersect the section line between secs. 32 and 33,  
hereinbefore described.

## Township 12 North, Range 9 West, Salt Lake Meridian, Utah

CHAINS

## General Description

Township 12 North, Range 9 West, is situated approximately 20 miles southwest of Snowville, Utah, and located within a half mile of Locomotive Springs Waterfowl Management Area in Box Elder County.

The general terrain is flat and rolling salt desert area with drainage to the southwest. The elevation varies from 5,428 ft. in section 13 to 4,230 ft. in section 30.

Access is by way of graveled road from Snowville, Utah, and an old abandoned Central Pacific Railroad grade.

The major vegetation consists of salt and june grass with scattering stands of sagebrush.

The principal use of the area is livestock grazing and dry farming with some recreation hunting.

The major improvements were a livestock well at the 1/4 sec. cor. of secs. 3 and 10, and development of new dry farming in the northeast sections of the township.

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the subdivisional lines and a survey of a portion of the subdivision of section 35, in Township 42 South, Range 16 West, Salt Lake Meridian, Utah.

History of Earlier SurveysSurveyed byRetr. or Resurveyed bySOUTH BOUNDARY

Portion	J. Gorlinsky	1870		
Portion	M. Dalley	1900		
Portion			M. Dalley	1900
Portion			G. Hatch	1968
Portion			R. Baugh	1982

SUBDIVISION

Portion	J. Gorlinsky	1870		
Portion	M. Dalley	1900		
Portion			M. Dalley	1900
Portion			G. Hatch	1968

These surveys were executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated July 5, 1985.

The directions of the lines were determined by altitude observations on the sun and refer to the true meridian. The bearings of the lines were carried forward by sustained angulation and the lengths of lines measured with an electronic measuring device.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the field note records. Lost corners were restored at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the corner of sections 1, 2, 35 and 36, on the south boundary of the township, was determined by ties as follows: U.S.C. & G.S. triangulation station "St. George Airport" was tied in by Glen B. Hatch in 1968 in the resurvey of Township 42 South, Range 16 West.

U.S.C. & G.S. triangulation station "George 1954" was tied in by Ronald K. Baugh in 1982 in the resurvey of section 1, T. 43 S., R. 16 W.

LATITUDE: 37° 04' 51.39" N. LONGITUDE: 113° 36' 14.60" W.

The mean magnetic declination as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980" is 13° 45' E.

Dependent Resurvey of a Portion of the Subdivisional Lines, T. 42 S., R. 16 W., Salt Lake Meridian, Utah

Township 42 South, Range 16 West, Salt Lake Meridian, Utah

CHAINS

## GENERAL DESCRIPTION

The lands resurveyed and surveyed in sec. 35 lie about 2 miles SW of the town of St. George, Utah, and directly S and SE of a resort subdivision known as Green Valley. Elevations range from 2600 to 3000 ft. above sea level.

The Santa Clara River meanders through the E 1/2 of the section, beginning at about the S 1/16 sec. cor. of secs. 35 and 36, and ending just East of the 1/4 sec. cor. of secs. 26 and 35.

Most of these lands are unimproved with some cultivation along the flood plain of the Santa Clara river. The NW 1/4 and the W 1/2 of the SE 1/4 are currently being developed as a part of the above mentioned Green Valley subdivision.

Access is by way of a paved county road which runs NE-SW through the NE 1/4 of the section, a paved road allowing access to the above mentioned Green Valley subdivision, and numerous gravel roads and unimproved dirt trails.

Vegetation consists mainly of sparse growths of sagebrush and grasses with some dense growths of tamarack and willows along the Santa Clara flood plains. The only timber in this section is a few cottonwoods along the Santa Clara River.

A11 Stewart and Booth 1903

SUBDIVISIONAL LINES

A11 Stewart and Booth 1903

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 676, Utah, dated August 22, 1985.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The mean magnetic declination as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980", 14° E.

The geographic position of the southeast corner of section 33, as scaled from U.S. Geological Survey Quadrangle "SAMS CANYON, Utah", is.

Latitude 40° 04' 57" N. Longitude 110° 40' 12" W.

	<p style="text-align: center;">GENERAL DESCRIPTION</p> <p>Township 4 South, Range 7 West, Uintah Meridian is situated about 30 miles southwest of Duchesne, Utah. The elevation in section 33 varies from 6,500 to 7,800 feet above sea level. The soil is mostly a clay loam with some exposed sandstone outcroppings.</p>

Township 4 South, Range 7 West, Uintah Meridian, Utah

## CHAINS

The Strawberry River flows in an easterly direction through the middle of the township, with Sam's Canyon, where section 33 is located, drains north into the Strawberry River.

There is an old abandoned log cabin located in the southeast portion of the section but no other improvements were noted. Access is by a dirt road in the bottom of Sam's Canyon branching off the main road along the Strawberry River bottom.

## CERTIFICATE OF SURVEY

I, Jerry L. Thomas, Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing

date of the 22nd day of August, 1985, I have dependently resurveyed a portion of the south boundary of section 33 (First Standard Parallel South), and a portion of the subdivisional lines and surveyed the subdivision of section 33 of T. 4 S., R. 7 W.,

of the Uintah Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

May 12, 1986  
(Date)

Jerry L. Thomas  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the south boundary of section 33 (First Standard Parallel South), and a portion of the subdivisional lines, and the survey of the subdivision of section 33 of T. 4 S., R. 7 W., Uintah Meridian, Utah

executed by Jerry L. Thomas, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

## CHAINS

The following field notes describe the dependent resurvey of a portion of the east boundary, a portion of the subdivisional lines and a partial subdivisional survey of sections 12, 13 and 24 in Township 10 South, Range 1 East, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byEAST BOUNDARY

Portion	C.L.Craig	1856		
Portion	J.T.Breckon	1892		
Portion			F.E.Joy	1905

NORTH BOUNDARY

All	C.L.Craig	1856
-----	-----------	------

SUBDIVISION

Portion	C.L.Craig	1856
Portion	J.T.Breckon	1892

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 654, Utah, dated July 24, 1984.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun. The lines were carried forward by sustained angulations, being supplemented by other observations on the sun taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the sec. cor. of secs. 19, 24, 25, and 30, on the E. bdy. of the Tp., as determined by a tie to U.S.G.S. triangulation station "QUIN", located in the SE 1/4 of sec. 14, is:

Latitude 39° 55' 26.362" N. Longitude 111° 45' 56.991" W.

The mean magnetic declination was taken from the 1979 U.S.G.S., 7 1/2 minute quadrangle "Santaquin, Utah", and is 15 1/2° E.

Reestablishment of the Resurvey Executed  
by F.E. Joy in 1905

Beginning at the cor. of secs. 19, 24, 25, and 30, on the E. bdy. of the Tp., monumented with a limestone, 4 x 8 x 10 in., firmly set, in a mound of stone, 1 ft. base, 1 ft. high, mkd. 1 notch on the N. face.

At the corner point

Set an aluminum post, 30 ins. long, 2 1/2 ins. diam., 20 ins. in the ground, and in a mound of stone, 3 ft. base, to top of aluminum cap, mkd.

Township 10 South, Range 1 East, Salt Lake Meridian, Utah

CHAINS

General Description

The lands surveyed and resurveyed within T. 10 S., R. 1 E., are located from 1 to 4 miles due south of the Town of Santaquin, Utah, and consist of rolling hills with some extremely steep slopes in the E 1/2 of sec. 24. Elevations range from 5100 to 7200 ft. above sea level. Santaquin Creek flows from south to north through sec. 13, beginning just south of the sec. cor. of secs. 13 and 24 only, on the east boundary of the township and ending just east of the point for the W 1/16 sec. cor. of secs. 12 and 13. Vegetation consists of moderate to dense growths of sagebrush, oakbrush, juniper and pines, with some dense grasses along Santaquin creek. The steep slopes in the E 1/2 of sec. 24 are covered with dense oakbrush. Access is by way of a paved road which parallels Santaquin Creek and numerous unimproved dirt trails.

## CERTIFICATE OF SURVEY

I, Milbert H. Krohn, Cadastral Surveyor, HEREBY  
CERTIFY upon honor that, in pursuance of special instructions date of  
the 16th day of September, 1985, I have dependently resurveyed  
a portion of the east boundary and a portion of the subdivisional lines  
with a partial subdivisional survey of sections 12, 13, and 24 of  
T. 10 S., R. 1 E.

of the Salt Lake Meridian, in the State of Utah, which are represented  
in the foregoing field notes as having been executed by me, and under  
my direction; and that said survey has been made in strict conformity  
with said special instructions, the Manual of Instructions for the  
Survey of the Public Lands of the United States, and in specific manner  
described in the foregoing field notes.

October 31, 1986  
(Date)

Milbert H. Krohn  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the  
east boundary and a portion of the subdivisional lines with a partial  
subdivisional survey of sections 12, 13, and 24 of T. 10 S., R. 1 E.,  
Salt Lake Meridian, Utah

executed by Milbert H. Krohn, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 7, 1986  
(Date)

Glen B. Hatch  
(Chief, Cadastral Surveyor for Utah)

## CHAINS

The following field notes describe the dependent resurvey of a portion of the north boundary, a portion of the subdivisional lines, and a partial subdivisional survey of sections 6 and 7, and a dependent resurvey of a portion of Mineral Survey No. 5993 of T. 10 S., R. 2 E., Salt Lake Meridian, Utah.

SUBDIVISION

Portion	C.L. Craig	1856	
Portion	A.P. Hanson	1898	
Portion			F.E. Joy 1905

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 654, Utah, dated July 24, 1984.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun. The lines were carried forward by sustained angulations, being supplemented by other observations taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the SE cor. of sec. 7, T. 10 S., R. 2 E., as determined by a tie made to U.S.G.S. triangulation station "QUIN", located in the SE 1/4 of sec. 14, T.10 S., R. 1 E., is: .

Latitude  $39^{\circ} 57' 13.940''$  N. Longitude  $111^{\circ} 44' 51.507''$  W.

The mean magnetic declination as taken from the 1979 U.S.G.S. 7 1/2 minute quadrangle "Santaquin, Utah", is  $15 1/2^{\circ}$  E.

## CERTIFICATE OF SURVEY

I, **Milbert H. Krohn, Cadastral Surveyor**, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of the 16th day of September, 1985, I have dependently resurveyed a portion of the north boundary and a portion of the subdivisional lines, and surveyed a partial subdivision of sections 6 and 7, with a dependent resurvey of a portion of Mineral Survey No. 5993 of T. 10 S., R. 2 E.

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

October 31, 1986  
(Date)

  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

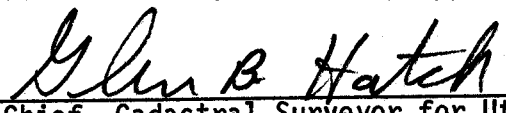

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the north boundary and a portion of the subdivisional lines, and the survey of a partial subdivision of sections 6 and 7, and a dependent resurvey of a portion of Mineral Survey No. 5993 of T. 10 S., R. 2 E.

executed by Milbert H. Krohn, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 7, 1986

## Township 2 South, Range 10 West, Uintah Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the north and west boundaries and portions of the subdivisional lines of Township 2 South, Range 10 West, Uintah Meridian, Utah.

In 1904 H.D. Page and B.S. Kershaw surveyed the township boundaries and subdivisional lines, as shown on the official plat of survey approved December 20, 1904. Certain corners were remonumented by Gerald W. Hochstrasser in 1966, Ferrel D. Reynolds in 1970, and Gail E. Reynolds in 1975 under the remonumentation cooperative agreement between the U.S. Forest Service and the Bureau of Land Management.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 657, Utah, dated August 27, 1984.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southwest township corner was determined from a tie made to the United State Coast and Geodetic Survey triangulation station "WAY," located in the southeast 1/4 of section 35, T. 2 S., R. 11 W., Uintah Meridian, Utah, is as follows:

Latitude 40° 15' 20.781" N. Longitude 111° 03' 56.060" W.

The mean magnetic declination as projected from the "U.S. Geological Survey Magnetic Declination Map of 1980", is 14° 30' E.

JSP-RLS-3832

Forest Service Land Surveyor John S. Parrish determined the cor. position by proportionate distance between the 1/4 sec. cor. of secs. 3 and 34, along with the 1/4 sec. cor. of secs. 4 and 33.

Cor. is located in fence line extending E and W.

S. 89° 21.4' W., bet. secs. 4 and 33.

Over mountainous land, through scattered timber and undergrowth.

40.169

The 1/4 sec. cor. of secs. 4 and 33, monumented with an aluminum post, 2 1/2 ins. diam., firmly set, projecting 7 ins. above the ground, and in a collar of stone, with aluminum cap mkd.

Dependent Resurvey of a Portion of the North Boundary,

JSP-RLS-3832

Forest Service Land Surveyor John S. Parrish, determined the cor. position from the original limestone, 10 x 8 x 4 ins. (record, 12 x 10 x 5 ins.), mkd. 1/4 and deposit alongside the aluminum post, from which two bearing trees not of record

An aspen, 10 ins. diam., bears N. 33° E.,  
26 1/2 lks. dist., mkd. 1/4 S33 BT.

An aspen, 10 ins. diam., bears S. 12° E.,  
11 1/2 lks. dist., mkd. 1/4 S4 BT.

Dependent Resurvey of the South 3 Miles  
of the West Boundary,  
T. 2 S., R. 10 W., Uintah Meridian, Utah

(Restoring the Survey Executed by  
H.D. Page and B.S. Kershaw in 1904)

The cor. of Tps. 2 and 3 S., Rs. 10 and 11 W., is determined at the cor. of an old fence line extending S and W and perpetuated with an iron post, 2 ins. diam., projecting 8 ins. above ground, loosely set with brass cap mkd.

Township 2 South, Range 10 West, Uintah Meridian, Utah

CHAINS	General Description
	<p>The land encompassed in this survey is located approximately three miles northeast of Strawberry Reservoir and approximately twenty miles southwest of Heber City, Utah, and is situated in the Uintah National Forest and Wasatch County.</p> <p>The general terrain is mountainous with drainage to the southeast by way of Current Creek. The elevation varies from 7400 ft at the section corner of sections 15, 16, 21, and 22 to 9241 at Buckhorn Knoll near the northwest corner of section 33.</p> <p>Access is by way of U.S. Highway No. 40.</p> <p>There are scattering stands of timber including aspen, fir, and pine, with undergrowth consisting of sagebrush, willows, oaks, cottonwood, and native grasses.</p> <p>The principal use of the area is for watershed, timber harvest, livestock grazing, recreation and resort area.</p> <p>The major improvements noted were the development of Currant Creek Reservoir in section 6 and the Water Hollow and Layout Tunnels from Currant Creek Reservoir to Strawberry Reservoir.</p>

## CERTIFICATE OF SURVEY

I, Frank C. Profaizer, Jr., Cadastral Surveyor,

HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 27th day of August, 1984, I have dependently resurveyed a portion of the north and west boundaries and portions of the subdivisional lines of T. 2 S., R. 10 W.,

of the Uintah Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

June 21, 1986  
(Date)

Frank C. Profaizer<sup>9</sup>  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the north and west boundaries and portions of the subdivisional lines of T. 2 S., R. 10 W., Uintah Meridian, Utah

executed by Frank C. Profaizer, Jr., Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 14, 1986  
(Date)

Glen B. Hatch  
(Chief, Cadastral Surveyor for Utah)

## Township 25 South, Range 1 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the east boundary (Salt Lake Meridian), a portion of the subdivisional lines and a subdivisional survey of sections 24 and 25, Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byEAST BOUNDARY (Salt Lake Meridian)

All T.C. Bailey and 1874  
J.G. Burrill

All W.H. Sylvester 1961

SUBDIVISION

Portion J.G. Burrill 1874

Portion A.P. Hanson 1891 A.P. Hanson 1891

Portion Page and Swan 1897 Page and Swan 1897

Portion W.H. Sylvester 1961

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 664, Utah, dated April 2, 1985.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the cor. of secs. 25, 30, 31, and 36, T. 25 S., Rs. 1 W. and 1 E., Salt Lake Meridian, as determined from a tie made to U.S. Geological Survey triangulation station "BEAR VALLEY", located in sec. 11, is:

Latitude  $38^{\circ} 35' 55.841''$  N. Longitude  $111^{\circ} 50' 53.990''$  W.

The mean magnetic declination as projected from the U.S. Geological Survey Magnetic Declination Map of 1980 is  $14^{\circ}$  E.

## CHAINS

40.110

The center E 1/16 sec. cor. of sec. 25.

The area surveyed and resurveyed in sections 24 and 25, T. 25 S., R. 1 W., is mostly rolling mountainous land covered with sagebrush, scrub oak, pinon, and juniper growth. The elevation varies from about 7000 to 7800 ft. above sea level. The general drainage is to the east into the Koosharem Reservoir. The principal use is livestock grazing.

## CERTIFICATE OF SURVEY

I, Gail E. Reynolds, Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of the 2nd day of April, 1985, I have dependently resurveyed a portion of the east boundary (Salt Lake Meridian), a portion of the subdivisional lines, and surveyed the subdivision of sections 24 and 25 of T. 25 S., R. 1 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

October 2, 1986  
(Date)

Gail E. Reynolds  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the east boundary (Salt Lake Meridian), a portion of the subdivisional lines, and a subdivisional survey of sections 24 and 25 of T. 25 S., R. 1 W., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 24, 1986  
(Date)

## Township 25 South, Range 1 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the subdivisional lines and the subdivisional survey of sections 19 and 30, T. 25 S., R. 1 E., Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed byWEST BOUNDARY (Salt Lake Meridian)

(See East Boundary T. 25 S., R. 1 W.)

SUBDIVISION

Portion	T.C. Bailey	1874	
Portion	A.P. Hanson	1895	
Portion			A.P. Hanson 1895
Portion			W.H. Sylvester 1961

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 664, Utah, dated April 2, 1985.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the cor. of secs. 29, 30, 31, and 32, T. 25 S., R. 1 E., Salt Lake Meridian, as determined from a tie made to U.S. Geological Survey triangulation station "Bear Valley 1968", located in sec. 11, T. 25 S., R. 1 W., is:

Latitude 38° 35' 55.665" N. Longitude 111° 51' 27.764" W.

The mean magnetic declination as projected from the U.S. Geological Survey Magnetic Declination Map of 1980, is 14° E.

Ferrel D. Reynolds	Surveying Technician

## CERTIFICATE OF SURVEY

I, Gail E. Reynolds, Cadastral Surveyor, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions date of  
 the 2nd day of April, 1985, I have dependently resurveyed a  
 portion of the subdivisional lines, and a subdivisional survey of  
 sections 19 and 30 of T. 25 S., R. 1 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented  
 in the foregoing field notes as having been executed by me, and under  
 my direction; and that said survey has been made in strict conformity  
 with said special instructions, the Manual of Instructions for the  
 Survey of the Public Lands of the United States, and in specific manner  
 described in the foregoing field notes.

October 2, 1986  
 (Date)

Gail E. Reynolds  
 (Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
 Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the  
 subdivisional lines, and a subdivisional survey of sections 24 and 25  
 of T. 25 S., R. 1 W., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 24, 1986  
 (Date)

Alan B. Hatch  
 (Chief, Cadastral Surveyor for Utah)

SUBDIVISION

Portion	A.D.Ferron	1878	
Portion	Page and Swan	1897	
Portion			Page and Swan 1897

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 675 , Utah, dated August 15, 1985.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun. The lines were carried forward by sustained angulations, being supplemented by other observations taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the SW sec. cor. of sec. 28, as determined by a tie made to U.S.G.S. triangulation station "SWAY", located in the SE 1/4 of sec. 17 is:

Latitude 38° 20' 14.55" N. Longitude 112° 32' 42.99" W.

The mean magnetic declination, as projected from the U.S. Geological Survey Magnetic Declination Map of 1980, is 14° E.

## Township 28 South, Range 6 West, Salt Lake Meridian, Utah

CHAINS

## GENERAL DESCRIPTION

The lands resurveyed and surveyed within T. 28 S., R. 6 W., are located about 6 1/2 miles NE of the town of Beaver, Utah, and consist of mostly level lands in the S 1/2 of sec. 29, and steep hills in the N 1/2 of sec. 29. Elevations range from 6700 to 7200 ft. above sea level. The North Fork of North Creek meanders from E. to W. approximately along the E-W center line of sec. 29. The South Fork of North Creek meanders from E. to W., beginning south of the S 1/16 sec. cor. of sec. 29, and merging with the North Fork of North Creek near the point for the center west 1/16 sec. cor. of sec. 29. The flat lands in the S 1/2 of sec. 29 have been developed as residential and agricultural areas. The vegetation consists mainly of dense grasses, wheat, barley and hay, with scattered dense growths of oakbrush, juniper, pines and some cottonwoods along the North and South Forks of North Creek. Vegetation on the steep hills consists of dense oakbrush, sagebrush, juniper and pines. Access is by way of a paved road which meanders E. and W. just north of the line between secs. 29 and 32, a gravel road which meanders E. and W. along the E-W center line of sec. 29, and numerous unimproved dirt trails and roads used to gather firewood. Tract 37 in sec. 29 is being surveyed to resolve a trespass of a private home on public lands.

## CERTIFICATE OF SURVEY

I, Milbert H. Krohn, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of the 15th day of August, 1985, I have dependently resurveyed a portion of the subdivisional lines, a partial subdivisional survey of section 29 and surveyed Tract 37 in section 29 of T. 28 S., R. 6 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

September 19, 1986  
(Date)

Milbert Krohn  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines, a partial subdivisional survey of section 29 and surveyed Tract 37 in section 29 of T. 28 s., R. 6 W., Salt Lake Meridian, Utah

executed by Milbert H. Krohn, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

October 29, 1986

## Township 13 South, Range 3 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the south and west boundaries, a portion of the subdivisional lines, and a partial subdivisional survey of sections 7, 8, 17, 18, 19, 20, 28, 29, 30, 33, and 34, Township 13 South, Range 3 East, Salt Lake Meridian, Utah.

SUBDIVISION

A11 H. & N. Fitzhugh 1895

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 658, Utah, dated September 4, 1984.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position based on the North American Datum of 1927 of the southeast corner of section 34, as determined from a tie made to United States Geological Station "DIVIDE" located in the NW 1/4 of section 1 of T. 14 S., R. 3 E. is as follows:

Latitude 39° 38' 16.188" N. Longitude 111° 33' 53.254" W.

The mean magnetic declination is 14 1/2° E.

	<p style="text-align: center;">GENERAL DESCRIPTION</p> <p>Township 13 South, Range 3 East, is located north and east of the town of Fountain Green, Utah. The elevation varies from about 6000 ft. at the valley floors to around 8000 ft above sea level on the higher mountainous peaks. The soil varies from sandy clay loam at lower elevations to very rocky on the higher slopes. There are numerous dirt and trail roads scattered throughout the portions surveyed and resurveyed. The general drainage is to the SW and the most noted use was game and livestock grazing.</p>

## CERTIFICATE OF SURVEY

I, Gail E. Reynolds, Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of the 4th day of September, 1984, I have dependently resurveyed a portion of the south and west boundaries, a portion of the subdivisional lines, and surveyed a portion of the subdivision of sections 7, 8, 17, 18, 19, 20, 28, 29, 30, 33, and 34 of Township 13 South, Range 3 East

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

October 1, 1986  
(Date)

/s/ Gail E. Reynolds  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the south and west boundaries, a portion of the subdivisional lines, and the survey of a portion of the subdivision of sections 7, 8, 17, 18, 19, 20, 28, 29, 30, 33, and 34 of Township 13 South, Range 3 East, Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

November 24, 1986  
(Date)

/s/ Glen B. Hatch  
(Chief, Cadastral Surveyor for Utah)

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in T. 13 S., R. 3 E., Salt Lake Meridian, Utah, is a true copy of the original field notes.

			A.P. Hanson 1891
Portion	J.T. Breckon	1896	
Portion			F.R. Chappell and J.L. Thomas 1970-71

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 669, Utah, dated May 23, 1985.

## Township 25 South, Range 4 West, Salt Lake Meridian, Utah

CHAINS	<p>The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.</p> <p>Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.</p> <p>The geographic position of the 1/4 sec. cor. of secs. 22 and 27, determined from a tie made to U.S.G.S. triangulation station "ANTELOPE", located in the SW 1/4 of sec. 9, T. 26 S., R. 4 W., is</p> <p>Latitude 38° 36' 10.63" N. Longitude 112° 13' 33.78" W.</p> <p>The mean magnetic declination is 14.50° E., as projected from the U.S. Geological Survey "Magnetic Declination Map of 1980".</p>

General Description

The area resurveyed and surveyed in sections 10, 15, and 22, T. 25 S., R. 4 W., is mostly rolling foothills covered with sagebrush, shadscale and a light scattering of juniper and pinon growth in the western portion. The town of Joseph is located in the eastern portions of secs. 10 and 15. The elevation varies from about 5400 to 5800 ft. above sea level. The general drainage is to the east into the Sevier River, which drains northerly. The principal use is livestock grazing.

## CERTIFICATE OF SURVEY

I, Gail E. Reynolds

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of

the 23rd day of May, 1985, I have dependently resurveyed a portion of the subdivisional lines and surveyed the subdivision of sections 10, 15 and 22 to the extent necessary to define the boundaries of the Koosharem Band of Southern Paiutes of Utah, Trust Lands and establish points of control as outlined by the Bureau of Indian Affairs in T. 25 S., R. 4 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

September 23, 1986  
(Date)

Gail E. Reynolds  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines and the subdivisional survey of sections 10, 15 and 22 to the extent necessary to define the boundaries of the Koosharem Band of Southern Paiutes of Utah, Trust Lands and establish points of control as outlined by the Bureau of Indian Affairs in T. 25 S., R. 4 W., Salt Lake Meridian, Utah

executed by Gail E. Reynolds, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

Deputy Surveyor

Mineral Survey No. 6369

All             J.H. Winwood,             1916  
Mineral Surveyor

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 698, Utah, dated November 17, 1986.

The directions of the lines of this survey refer to the true meridians as determined by hour angle observations of the Sun. The lines were carried forward by sustained angulations.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The mean magnetic declination as projected from the U.S. Geological Survey Magnetic Declination Map of 1980, is 15° E.

## General Description

Lake View Carbonite No. 3 Lode, Mineral Survey No. 6369,  
is located on the south end of the Promontory Mountains.  
The elevation varies from 5,500 ft. to 6,000 ft. above  
sea level. The area is covered with a medium dense  
growth of pinon and juniper timber with sagebrush and  
grass undergrowth. Access is by an asphalt and gravel  
road along the east and south sides of Promontory Point  
and unimproved dirt roads in the area.

Portion	Collier & Gentry	1909	
Portion			Collier & Gentry 1909
<u>SUBDIVISION</u>			
Portion	T.C. Bailey	1877	
Portion			G.D. Voorhees 1959

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 697, Utah, dated November 14, 1986.

The directions of the lines of this survey refer to the true meridian as determined by hour angle observations of Polaris. The lines were carried forward by sustained angulation.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the south 1/4 section corner of section 10, as determined by a tie made to U.S.G.S. triangulation station "Crater Hill", is as follows:

Township 42 South, Range 10 West, Salt Lake Meridian, Utah

Latitude  $37^{\circ} 08' 28.92''$  N. Longitude  $112^{\circ} 58' 10.03''$  W.

The mean magnetic declination, as projected from the U.S.G.S. "Magnetic Declination Map of 1980" is  $14^{\circ}$  E.

GENERAL DESCRIPTION

The area resurveyed and surveyed in Township 42 South, Range 10 West is located immediately east of the town of Rockville, Utah, and south of the town of Springdale. Zion National Park borders this area on the north and east. The elevation and terrain vary from 3800 feet in the level river bottoms of section 6 to 4600 feet in steep, broken sandstone ledges in the northeast portion of the area surveyed. Drainage is to the East Fork of the Virgin River which flows west to its confluence with the North Fork in the southwest quarter of section 5. Vegetation varies from cottonwood and willow along the stream courses to sagebrush covered benches and dense pinon-juniper in the south. The level portions of the area surveyed are under cultivation.

## CERTIFICATE OF SURVEY

I, Richard A. Zaninovich, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of special instructions date of the 14th day of November, 1986, I have dependently resurveyed portions of the north and west boundaries, a portion of the subdivisional lines, surveyed a portion of the subdivisional lines, and surveyed a portion of the subdivision of sections 3, 4, 5, 6, 8, 9, and 10 in Township 42 South, Range 10 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

January 15, 1987  
(Date)

  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

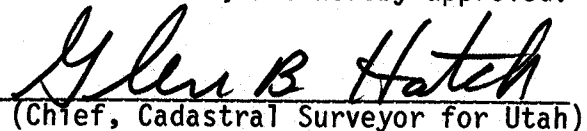

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of portions of the north and west boundaries, a portion of the subdivisional lines, a survey of a portion of the subdivisional lines, and the survey of a portion of the subdivision of sections 3, 4, 5, 6, 8, 9, and 10 in Township 42 South, Range 10 West, Salt Lake Meridian, Utah.

executed by Richard A. Zaninovich, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

March 31, 1987

Portion	J.C. Thoma	1916
Portion	E. Bird	1924
Portion	D.A. Cannon	1959

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the special instructions for Group No. 700, Utah, dated November 24, 1986.

The directions of the lines were determined by reference to true meridians established on line by hour angle observations on the sun. The lines were carried forward by sustained angulations. The distances were measured by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were

Township 34 South, Range 5 East, Salt Lake Meridian, Utah

remonumented in their original positions. Lost corners were restored and remonumented at proportionate position based on the original record. The retracement data were thoroughly verified and only the true line notes are given herein.

The geographic position of the cor. of secs. 9, 10, 15 and 16, as determined by a direct tie to U.S.G.S. triangulation station "BOULDER", located in the NW 1/4 of sec. 4 is:

Latitude:  $37^{\circ} 51' 27.856''$  N. Longitude:  $111^{\circ} 20' 59.590''$  W.

The mean magnetic declination, as projected from the U.S.G.S. Magnetic Declination Map of 1980 is  $14^{\circ}$  E.

#### General Description

The lands surveyed and resurveyed within T. 34 S., R. 5 E., are located approximately 5 miles SE of the town of Boulder, Utah, and consist of rugged canyon lands. Deer Creek flows from about the W 1/16 sec. cor. of secs. 4 and 33, on the N. bdy. of the Tp., southerly through sections 4 and 9, to a point near the E

## Township 34 South, Range 5 East, Salt Lake Meridian, Utah

1/16 sec. cor. of secs. 9 and 16. The lands are rugged with sparse to dense growths of pinon, juniper and sagebrush. Deer Creek valley averages about 10 ch. wide and is nearly level with dense grasses. Access is by way of a dirt road which parallels Deer Creek. Elevations range from 5800 ft. above sea level, along Deer Creek, to 6700 ft. above sea level at the sec. cor. of secs. 4, 5, 32, and 33, on the N. Bdy. of the TP. A stone house appears to be in trespass near the SE 1/16 sec. cor. of sec. 9. Ties to this house are included in the body of these notes.

Ronald K. Baugh	Supervisory Land Surveyor

## CERTIFICATE OF SURVEY

I, Milbert H. Krohn, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of special instructions date of the 24th day of November, 1986, I have dependently resurveyed a portion of the north boundary, a portion of the subdivisional lines and surveyed a portion of sections 4 and 9 in Township 34 South, Range 5 East,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

January 15, 1987  
(Date)

Milbert H. Krohn  
(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependent resurvey of a portion of the north boundary, a portion of the subdivisional lines and the partial subdivisional survey of sections 4 and 9 in Township 34 South, Range 5 East, Salt Lake Meridian, Utah.

executed by Milbert H. Krohn, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

March 2, 1987

WITH A SUBDIVISIONAL SURVEY OF CERTAIN SECTIONS  
OF  
TOWNSHIP 7 SOUTH, RANGE 4 EAST

Of the Salt Lake Meridian,  
In the State of Utah.

EXECUTED BY

Gary L. Kratz Cadastral Surveyor

Under special instructions dated August 5, 1983, approved August 5, 1983.  
which provided for the surveys included under Group Number 635, and assignment  
instructions dated August 5, 1983.

Survey commenced August 9, 1983

Survey completed October 10, 1984

## Township 7 South, Range 4 East, Salt Lake Meridian, Utah

CHAINS

The following field notes are those of the dependent resurvey of a portion of the First Guide Meridian East through T. 7 S., a portion of the south and west boundaries, a portion of the subdivisional lines, a portion of the private land claims, with a subdivision survey of certain sections, T. 7 S., R. 4 E., Salt Lake Meridian, Utah.

History of SurveysSurveyed byRetr. or Resurveyed bySOUTH BOUNDARY

All S.P. Stewart and J.R. Stewart  
1899

Portion D.A. Cody 1971

EAST BOUNDARY

All S.P. Stewart and J.R. Stewart  
1899

WEST BOUNDARY

All N. Fitzhugh and H. Fitzhugh  
1895

Portion G.B. Hatch and 1979  
G. Reynolds

SUBDIVISION

All S.P. Stewart and J.R. Stewart  
1899

Portion D.A. Cody 1971

PRIVATE LAND CLAIM

All S.P. Stewart and J.R. Stewart  
1899

Certain corners were remonumented in 1966 and 1975 under the remonumentation cooperative agreement between the U.S. Forest Service and the Bureau of Land Management.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 635, Utah, dated August 5, 1983.

The directions of the lines of this survey refer to true meridians established by hour angle observations on Polaris. The lines were carried forward by sustained angulations, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

## Township 7 South, Range 4 East, Salt Lake Meridian, Utah

## CHAINS

The geographic position of the cor. of secs. 25, 30, 31, and 36, T. 7 S., Rs. 4 and 5 E., based on ties to National Geodetic Survey Stations "BARTHOLOMEW" and "HEAVEN", located in sections 8 and 31, respectively, is as follows:

Latitude  $40^{\circ} 10' 27.17''$  N. Longitude  $111^{\circ} 25' 25.69''$  W.

The mean magnetic declination is  $14 \frac{1}{2}^{\circ}$  E.

Dependent Resurvey of a Portion of the  
First Guide Meridian East through  
T. 7 S., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
S.P. Stewart and J.R. Stewart, Deputy Surveyors in 1899)

Beginning at the cor. of secs. 25, 30, 31, and 36, on the E bdy. of T. 7 S., R. 4 E., monumented with a white limestone,  $20 \times 10 \times 8$  ins., firmly set 15 ins. in the ground, mkd. 5 notches on N edge and 1 notch on S edge, with an embedded mound of stone, W of cor.

At the corner point

Set an aluminum post, 30 ins. long,  $2 \frac{1}{2}$  ins. diam., 24 ins. in the ground, with aluminum cap mkd.

## General Description

Township 7 South, Range 4 East lies in Hobble Creek Canyon, just east of Springville, Utah. The elevation of this portion of the Wasatch Mountains ranges from 5,000 to 7,600 ft. above sea level. Most of the area surveyed is steep and covered with oak brush and maple.

Numerous homes are situated in Left Hand Fork of Hobble Creek Canyon. Locked gates are common and recent record runoff has severely damaged or completely washed out many of the roads.

## CERTIFICATE OF SURVEY

I, Gary L. Kratz, Supervisory Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions date of

the 5th day of August, 1983, I have dependently resurveyed a portion of the First Guide Meridian East through T. 7 S., a portion of the south boundary, a portion of the west boundary, a portion of the subdivisional lines, a portion of the private land claims, with a subdivisional survey of certain sections of T. 7 S., R. 4 E.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

January 15, 1987  
(Date)

Gary L. Kratz  
(Supervisory Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Salt Lake City, Utah

The foregoing field notes of the dependently resurveyed a portion of the First Guide Meridian East through T. 7 S., a portion of the south boundary, a portion of the west boundary, a portion of the subdivisional lines, a portion of the private land claims, with a subdivisional survey of certain sections of T. 7 S., R. 4 E.,

executed by Gary L. Kratz, Supervisory, Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

February 27, 1987  
(Date)

Glen B. Hatch  
(Chief, Cadastral Surveyor for Utah)
